

## Your Opportunity to Buy Writing Paper

Pound papers are always the more economical in buying stationery—and because we give you sixteen ounces of writing paper—about 90 sheets—in each pound, ours is the more economical to buy.

### Lord Baltimore Writing Paper

Is a grade for which you may ordinarily pay as much as 35c. but is a paper we specially feature at 25c per pound. Deep point ply envelopes to match, 50 in a carton, cost you 25c.

### An Exceptional Value

During this month we are making a special feature of this stationery, offering one pound of the paper and fifty of the envelopes, a combination for which we ordinarily ask 50c.

### The Two—Special for 39c.

Don't wait until you need writing paper—buy it while you can get it at this price.

Lord Baltimore Writing Paper is sold only at the REXALL Store.

FEATURE HOUSE  
TONIGHT

"THE WHITE SISTER"  
As a book and as a play, "The White Sister," created a sensation. Filmed for the screen by Essanay, with Viola Allen in the title role and Richard C. Travers as leading man, it will be the sensation of the motion picture world. Six reels are required to tell the story of this wonderful picture. Six reels that are crowded every moment with the hurrying events of a great life drama. The pictures are superb; the costumes are correct in every detail; the scenes are laid correctly as to atmosphere. There is nothing missing, nothing wanting in this most beautiful and wonderful picture. Every part is perfectly cast, every scene perfectly played. See this.

TUESDAY—"Cross Currents." Triangle Fine Arts, featuring Helen Ware with an all star cast.

"The Worst of Friends." With Joe Weber and Lew Fields have numerous comical adventures centering around a beauty parlor and its attendants. This is a typical Weber and Fields comedy.

Pictures for matinee 2 to 5 p. m. Night show, 7:30 to 11 p. m.

5c--10c

TO REPUBLICANS

Do not register as a Democrat for the sake of voting for some friend running for county office.

The law is such that, unless the vote polled in the Republican primaries equals twenty-seven (27) per cent of the Republican vote cast for governor, the Republican nominees will not be placed on the ticket for the general election.

Would you rather vote for a friend for a Democratic nomination or for the Republican ticket?

This matter is serious. Register yourself REPUBLICAN. (Advertisement.) 5-4-5t

### RHEUMATISM

If you are troubled with chronic or muscular rheumatism give Chamberlain's Liniment a trial. The relief from pain which it affords is alone worth many times its cost. Obtainable everywhere.—Adv. d&w

## EMPRESS

The Quality Play House  
FIRST RUN UNIVERSAL PICTURES

TONIGHT

"THE GIRL WHO FEARED DAY LIGHT"

Victor drama, featuring Mary Fuller with a brilliant supporting cast. Mary's uncle wishes to get control of her fortune. Part of this plot was to make Mary believe that if she exposed her eyes to the light of day she would be a chicken blind. This fine play is further evidence of the superiority of Universal program features. Consider the remarkable cast. Mary Fuller, William Welsh, Edna Pendleton, Curtis Benton and Clifford Gray.

"THE BANKRUPTCY OF BOGGS AND SHULTZ"  
L-Ko comedy. Alice Howell and Ray Griffith in the leads. Six reels in all. A mixed variety program, all first run pictures. Matinee, open 1 to 5 p. m.

5c 10c

### MARBLES IN ANNUAL DEMAND

Each Spring, It is Estimated, More Than 200,000,000 Are Used in the United States.

It has been estimated by statisticians that more than 200,000,000 small clay marbles are used by the boys of the United States every springtime. It is a known fact that 125,000,000 marbles are made every year by one clay marble manufacturer whose plant is in Summit county, Ohio. And these marbles are made or rolled by young girls, the Cleveland Plain Dealer states.

The marble manufacturer does not devote all his attention to the manufacturing of the "game marble." There are various uses to which the marble is put, and as a matter of fact, the size varies according to its intended use. The Standard Oil company is one of the largest buyers of marbles, and these are used for oil cans and larger sizes are started in graded pipelines to clean out the paraffin which gathers on the side of the pipe as it flows to the tanks.

Clay marbles are used also by the manufacturer of rubber, ink and salt, chemical and powdermakers. They are used also in grinding the large stones of the lithographer and by railway supply people. Puzzle box makers are also large buyers of marbles.

The sizes of the clay marbles as made in the United States vary from nine-sixteenths of an inch in diameter, which is the small "pill" the boys play with, to one measuring six inches in diameter, or about the size of a cannon ball.

### WAILINGS OF A WIDOWER

A man's wife is the home-rule party in this country.

Few married men get a chance to breathe the air of freedom.

Married women feel sorry for old bachelors and married men envy them.

Unless a man is looking for trouble he will never attempt to argue with his wife when she is trying to put her hair up in a new way.

### ANSWERS TO THE ANXIOUS

Lovelorn—It isn't advisable to kiss your sister before another girl. Kiss the other girl first.

Quaker—You lose the bet. A quill pen was used in writing the Declaration of Independence, not William Penn.

Kickapoo—We have looked up and down several authorities, but can find nothing that relates to moccasins ever having been made over the Last of the Mohicans.

Pennies—Yes, employ a stenographer by all means. You have discovered how badly you write and a stenographer will enable you to realize how badly you think.

### A SYMBOL OF HEALTH

The Pythagorians of Ancient Greece ate simple food, practiced temperance and purity. As a badge they used the five pointed star which they regarded as a symbol of health. A red five pointed star appears on each package of Chamberlain's Tablets, and still fulfills its ancient mission as a symbol of health. If you are troubled with indigestion, biliousness or constipation, get a package of these tablets from your druggist. You will be surprised at the quick relief which they afford. Obtainable everywhere.—Adv. d&w

FRIDAY—Mary Page.

### RHEUMATIC PAIN STOPPED

The drawing of muscles, the soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore spots. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philadelphia, Pa. Sloan's Liniment kills pain. 25c at Druggists.—Adv. d&w

### MADE THE FIRST PERISCOPE

Preacher is Credited With Invention Which Has Given the Submarine Its Dreaded Power.

The origin of the periscope is now under discussion, and the following extract from the writings of the well known inventor of "Pepper's Ghost" gives the credit to the clerical profession.

Pepper wrote soon after the Crimean war: "During the siege of Sebastopol numbers of our best artillery men were continually picked off by the enemy's rifles as well as by cannon shot, and in order to put a stop to the foolishness and incautiousness of the men a very ingenious contrivance was invented by Rev. William Taylor, the conductor of Mr. Denison in constructing the first 'Big Ben' bell. "It was called the reflecting spy-glass, and by its simple construction rendered the exposure of the sailors and soldiers, who would look over the parapets or other parts of the works to observe the effect of their shot, perfectly unnecessary; while another form was constructed for the purpose of allowing the gunner to 'lay' or aim his gun in safety. "The instruments were shown to Lord Panmure, who was so convinced of the importance of the invention that he immediately commissioned Rev. William Taylor to have a number of these telescopes constructed."

Photographing Machinery. One of the tasks which occasionally fall to the lot of the amateur photographer is to take some piece of machinery as it stands in the works, often with a back ground of other machines, belting, etc., with which it is easily confused. As it is usual to block out machines on the negative, so that they print out on a plain white background, this does not matter very much; but the blocking out is made much easier if the machine is given some kind of a background against which it can be seen, so that there is no doubt which is the machine in question and which is not. A few newspapers pinned together will be found quite efficient for this purpose, and a few more spread on the floor will be very helpful by reflecting light up on to the undersurfaces of the different parts, which otherwise would be likely to come out much too dark.

The highest spot cash price will be paid for some clean cotton rags delivered at once to the Daily Express office. 3-31tf
